Light emission

Colours

Materials

Die-cast aluminium lighting units; reflective units made of injection-moulded thermoplastic material with metallic finish; stainless steel reflector.

Matériaux

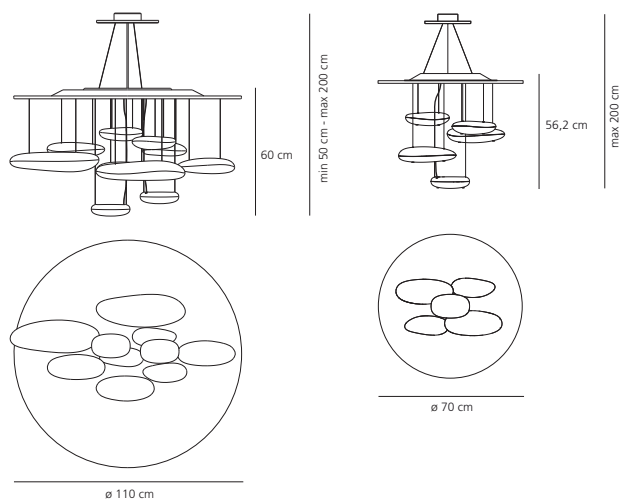

Corps lumineux en aluminium moulé sous pression. Galets réfléchissants en matière thermoplastique finition métallisée. Réflecteur en acier inoxydable.

Materialien

Leuchtenkörper aus druckgegossenem Aluminium; reflektierende Körper aus Spritzguss-Thermoplast mit Metallic-Oberfläche; Reflektor aus Edelstahl.

Materiales

Cuerpos luminosos en aluminio fundido a presión; cuerpos reflectantes en material termoplástico moldeado por inyección, con acabado metalizado; reflector en acero inoxidable.

Mercury sospensione Halo

HALO max 2x160W (R7s) – ECO, dimmable

Mercury mini sospensione Halo

HALO 1x160W (R7s) – ECO, dimmable

Mercury sospensione Led

LED Total power 2x31W
Warm white 3000K
Lighting output 4200lm
dimmable

Mercury mini sospensione Led

LED total power 1x31W
Warm white 3000K
Lighting output 2100lm
dimmable
